

# MAM StockTake

## Specification sheet

The following is a list of requirements needed to operate StockTake. Please note that these are not included with the app and may incur additional purchase, implementation and/or support costs.

### Compatible devices

▶ StockTake has been tested with the following tablets:

- Apple iPad 2nd gen
- Apple iPad 3rd gen
- Apple iPad 4th gen
- Apple iPad Mini
- Samsung Galaxy Tab 2 10-inch
- Samsung Galaxy Tab 3 10-inch
- Google Nexus 7

▶ StockTake has been tested with the following Smartphones:

- iPhone 4s & iPhone 6 (both running Apple iOS 8.1)
- HTC One (M8) (Android 4.4.3)
- Sony Experian Z3 (Android 4.4.4)
- LG Nexus 5 (Android 4.4.4)
- Samsung Galaxy S5 (Android 4.4.2)
- Samsung Galaxy S3 (Android 4.1.2)

▶ Bluetooth scanners:

Please refer to the scanner manufacturer's guidelines to ensure compatibility with your mobile device.

### Connectivity

- ▶ StockTake requires an active internet connection (Wi-Fi or 3G/4G) whilst retrieving or submitting stocksheet data
- ▶ StockTake will work offline whilst recording count quantities

### Required software

- ▶ StockTake is not a standalone app and requires an active connection to a suitable MAM business management solution

Cloud-hosted solutions	On-premise solutions
Autopart Online R013 or above Autopart Tyres Online R013 or above Trader Online R013 or above	Autopart Tyres v20 R013 or above Autopart v20 R013 or above Trader v20 R013 or above

(Continued overleaf)

# MAM StockTake

## Configuration

The user MUST have the Stock Taking module within Autopart fully configured. Sheets are generated in Autopart initially and are then accessed via the app. The stock count is recorded on the app and the information sent back to Autopart where the user will finalise the stocktake and update the database.

## Infrastructure requirements

In order to connect StockTake to an MAM business management solution, a secure, real-time connection is required. Existing infrastructure may be used, provided it meets minimum requirements

Cloud-hosted solutions	On-premise solutions
Seller Infrastructure	Seller Services software
	Autonet web server hardware
	Uninterruptable power supply (UPS)*
	Static IP address
	Managed firewall
	Microsoft Windows Server base licence
	Microsoft Windows Server device CAL (per device)
	Sophos anti-virus (for server)*
	<i>Plus either SQL#1 OR SQL#2:</i>
	SQL#1: Microsoft SQL Server user CAL (per device)**
	SQL#2: Microsoft SQL Server per-core licence (unlimited devices)***

\*Strongly recommended. \*\*Supplements data server SQL base licence. \*\*\*Replaces data server SQL base licence.
