

Autopart v20

A comprehensive application for motor factors, distributors and retailers

Autopart is a feature-rich, Windows-based application offering fully-integrated point-of-sale, stock control & accounting functionality

Key features

- ▶ Flexible retail point-of-sale
- ▶ Multi-branch stock management
- ▶ Integrated electronic catalogue
- ▶ Purchase order processing
- ▶ Wholesale sales order processing
- ▶ Integrated ledger accounting
- ▶ Trade, retail & promotional pricing
- ▶ Detailed management reporting
- ▶ Barcode scanning & label printing
- ▶ Fully e-business enabled

Created and developed for the Windows operating system, it provides a wealth of functionality yet remains intuitive and simple to use. Autopart's flexible screen layouts simplify the sales process and promote good customer service. Details such as electronic catalogue, stock availability, alternative products, special pricing and customer sales history are all instantly accessible from point-of-sale, thereby providing counter staff with the necessary information to conduct a smooth and efficient transaction.
