

MAM SalesRep

A feature-rich tablet application for field-based sales representatives

Connect directly with your branch or head office to access important information and conduct business when away from the office

Key features

- ▶ Stock, pricing, enquiries and orders
- ▶ Business intelligence & reporting
- ▶ Customer & status summary
- ▶ Detailed customer info & notes
- ▶ Call and visit logging
- ▶ Financial account enquiries
- ▶ Product purchase history
- ▶ Outstanding & recent transactions
- ▶ Impress & managed stock check
- ▶ Secure, real-time access to data

Available for iPad, iPad Mini and selected Android tablets*, SalesRep empowers your field sales staff to strengthen customer relationships & improve productivity. It communicates directly with your MAM business management solution via Wi-Fi or 3G/4G, enabling your staff to access account information, customer notes & transaction history. They can check pricing, view stock availability & raise orders directly from the app. It also allows your staff to conduct impress or managed stock checks & create replenishment orders. Details of visits & calls can be synced instantly with your branch or head office.
